

Precision in Every Grain

Silica Sand Processing — Rajpardi, Bharuch, Gujarat

ABOUT JOYOUS MINERAL

Joyous Mineral delivers high-quality, precision-processed silica sand for investment casting, foundry, tiles manufacturing and construction industries — sourced directly from GMDC grounds and refined through a five-stage processing line.

PRODUCT 01

Construction Sand

Thicker, larger granule size. Used in general-purpose concrete mixes to create strong bonds and fill voids while balancing workability.

GRAIN SIZE: COARSE • USE: CONCRETE MIXES, GENERAL CONSTRUCTION

PRODUCT 02

Silica Sand

Fine-grained, approximately 0.60mm to 0.15mm. Delivers a smooth surface finish for cast pieces — widely used in investment casting and foundry work.

GRAIN SIZE: 0.60 → 0.40 → 0.30 → 0.15 MM • USE: CASTING, FOUNDRY

APPLICATIONS

01

Investment Casting

02

Foundry

03

Tiles Manufacturing

04

Construction
